As an engineering graduate and working experience with multiple technologies helped me lot in IT Industries. I am looking forward to work with companies where I can learn more about cloud operation/Administration technologies and provide high revenue to company so I also grow as well.

EXPERIENCE

- Total 3+ Years of experience in Linux and API Testing.
- Practical Knowledge and experience in Linux, Docker, Kubernetes, Rancher, AWS, and Shell scripting.
- Hands on experience for Sanity, System, Stress, Functional, Feature, Regression and Performance testing.
- Working knowledge in automation tool like Ansible and RPA(UI Path Studio).
- Monitoring server performance and application process.
- Installation and deployment of RHEL on VM.
- Implementation of system security as per Minimum base security standard(MBSS).
- Troubleshooting to find out the issue in every build deployment and intimating concerned stack holders for resolution to have a smooth delivery.
- Everyday monitoring, maintenance operations and troubleshooting.
- Basic understanding of Infra structure.
- Implementation and updating of technical documents on Infra structure.
- **Cisco Router & Switch:** 1841, 2611xm, 2801, 2811 series/ 2950, 2960, 3550 series.
- **Firewall:** FortiGate, ASA and Ribbon.

JULY 2019 – PRESENT
ASSOCIATE-II ENGINEER, CAPGEMINI ENGINEERING (EARLIER ALTRAN)
Project Name: BVM-11 (Working with Ericsson as an ARP)
November 2021 - Present
Part of Infra and Deployment team, where we configure switches at SDI level and deploy ECCD cluster version as per the requirement.
Roles & Responsibilities:
- Configuration of switches, verification of ports, adding computes to SDI manager and make compute discover.
- Flavour and Network creation on openstack
- Creation of certificate using openssl and converting the qcow images to raw.
- Deployment of ECCD clusters and perform post deployment configuration, like DEX server, Prometheus, and some changes in running pods etc.
- Cluster upgrade, Redeployment modification on running cluster respect of cluster or addition of additional cluster and network vnf modification.

Project Name: CIS (Customer Interaction System)
March 2021 - November 2021
Part of Infra and Deployment team, where we deploy pod on Kubernetes cluster, and monitor and manage them as well.
Roles & Responsibilities:
- Deployment and configuration of docker and rancher including configuring private registry for images
- Setting up custom monitoring metrics/analysis/alarms via Prometheus and Grafana.
- Linux MBSS configurations and automations
- Utilized configuration & automation tools such as a Ansible.

Project Name: ISSI
January 2020 - March 2021
Part of validation team, where I worked with the Ghn devices which communicate over power line.
Roles & Responsibilities:
- Perform different-different type of testing as per requirement.
  Sanity, System, Stress, Functional, Feature, Regression, Performance testing.
- Upgrade & Downgrade devices as new Firmware releases given by development team.
- Test Plan Writing.
- Monitor throughput and assert on devices.
- Monitor network stability with other Ghn devices.
- Perform operation on devices with the help of API as per requirement.

Project Name: NEC
July 2019 - January 2020
Part of L2Support/ validation team and work on RAN network of 3G and 4G, take cake of Firewall and perform testing.
Roles & Responsibilities:
- Taken care of firewall and monitoring the alarm.
- Perform Functional testing and stress testing.
- Test plan writing, debugging etc.

SEPTEMBER 2018 – JULY 2019
IT EXECUTIVE, INTERGLOBE AVAIATION (INDIGO)
As a part of local IT team, dealing with company employees and vendor teams to resolve the employees query as per SLA.
Roles & Responsibilities:
- Use BMC remedy tool to track the assigned ticket and as per the user description take and appropriate action to resolve the assigned ticket.
- Provide remote support using BMC remedy, AnyDesk and RDP, skype.
- Working with network team when network outage occurs.
- Configure Desktop/ Laptop/ Printer and installation of Windows/ Antivirus/ System Drivers/ and different- different application as per required by departments.
- Solve outlook related issue.
- Coordinate with Biometric team for installation and perform operation on it.

EDUCATION

2014 – 2017
BTECH (CSE), AMBEDKAR INSTITUTE OF ADVANCED COMMUNICATION
TECHNOLOGIES & RESEARCH, DELHI

2011 – 2014
DIPLOMA (CSE), GURU TEGH BAHADUR POLYTECHNIC INSTITUTE, DELHI

MARCH 2011
10TH, GYAN JYOTI PUBLIC SENIOR SECONDARY SCHOOL, DELHI

SKILLS

- **Soft Skills:** Technical Documentation
- **Cloud Tools:** Ansible, Openstack and AWS
- **Monitoring Tools:** Prometheus and Grafana
- **OS:** Windows, Centos, RHEL and Ubuntu
- **Programming:** Shell Script, YAML.
- **Container Platform:** Docker, Kubernetes, ECCD (Ericsson Cloud Container Distribution) and Rancher

ACHIVEMENT & TRAINING CERTIFICATES

1. 3 time recognized by **WOW TEAM EXCELENCE AWARD** in **Capgemini (Altran).**
2. Recognized by Employee of the month in **INDIGO.**
3. Global **CCNA** Certified, CISCO ID: CSCO13292044.
4. RED HAT ACCREDITED PROFESSIONAL global certified.
